

## Automotive Service Technician

### Job Description:

A Brickners Auto Technician / Mechanic must be highly motivated and team oriented and have a strong work ethic. As an Automotive Service Technician you will perform vehicle repair and maintenance as assigned in accordance with dealer and factory standards. The individual will report directly to the service manager in the department.

### Responsibilities:

- Inspect and test vehicles to determine necessary and applicable repair work.
- Diagnose and repair vehicle automotive systems including engine, steering, suspension, brakes and air conditioning to required specifications.
- Provide labor and time estimates for all repair work.
- Complete necessary paperwork and documentation for service repairs.
- Participate in training and education programs, to improve and maintain knowledge of current products and technologies.

### Requirements:

- Excellent communication and customer service skills
- Self-motivated, goal oriented, and ability to work within a fast paced environment
- Current, valid driver's license and satisfactory Motor Vehicle Report (MVR)
- All potential employees must pass pre-employment testing including a background check and drug screen
- Ability to be on your feet for long periods of time.
- Must have own tools or willing to acquire
- General automotive experience preferred
- Vocational/Technical Degree or ASE Certifications desired but not required

### Benefits:

- Paid training and development
- Career growth opportunities
- Medical and dental insurance
- Paid vacation
- 401(k)
- Equal opportunity employer
