<b>Knowledge Management</b>
Tuesday, February 21, 2017
<b>Developing Corporate Behavior</b>
Tuesday, March 7, 2017
<b>Performance Management</b>
Tuesday, March 21, 2017

## GET STARTED TODAY

These sessions are offered remote connection to the Antigo, Medford, and Phillips campuses.

Please contact us at [bi@ntc.edu](mailto:bi@ntc.edu) for information.

Knowledge Management is the establishment of a system that captures knowledge purposefully for incorporating into business strategies, policies, and practices at all levels of the company. This course will teach the learner how to initiate a knowledge management program at work.

With Developing Corporate Behavior your participants will be able to develop a business environment that reflects a positive set of values and ethics. Aligning these characteristics with the standards of conduct is what makes a business stand out and be a leader in the business world.

Performance Management is making sure the employee and the organization are focused on the same priorities. It touches on the organization itself by improving production and reducing waste. It helps the employee or individual set and meet their goals and improves the employee manager relationship.
