

Is Job Skills Training for You?

Earning a certification or completing a Job Skills training is a great way to start a career path.

By gaining additional skills, you have opportunities to compete for better paying jobs.

And, did you know that job skills training hours can count towards the work requirement for FoodShare?

Take a look inside to see what training opportunities are available through the NorthCentral FSET program!

*FSET is not a financial aid program.
FSET is unable to fund extended training or education programs.*

Adams County

NORTH CENTRAL FSET PROGRAM

Job Skills Training Opportunities

Helping FoodShare members connect to jobs

www.MyFSET.net

This institution is an equal opportunity provider.

Although FSET is not a Financial Aid program, it can help FoodShare members who are enrolled in the FSET program with the cost for some short-term training programs for in-demand careers in the local labor market.

The Approval Process

In order to be approved for a training that is paid for by the FSET program, a customer must meet the following criteria:

- Be enrolled in FSET;
- Is completing FSET activity;
- Pass the Accuplacer or other placement test when necessary;
- Pass background check, when necessary for that field;
- The training program is for an in-demand field;
- The training is a semester long or shorter;
- Attend a work experience activity related to the field to affirm interest and ability.

Training approval is contingent on funding availability and by FSET manager approval.

Approved Programs

Each year, we review the program listings for the local Wisconsin Technical Colleges to identify short-term certificate programs that may provide the best opportunities for customers in the labor market.

Each Wisconsin Technical College has their own set of programs which is why not all programs are offered at each college.

Other Training Opportunities

In addition to the listed programs in this brochure, other training opportunities may be approved on a case-by-case basis.

If there is a training that you find that is offered through the Technical College or at a different school or vendor, bring that to your case manager to review.

Customers who are interested in long-term training (or degreed program) will be directed to the school's financial aid office.

Mid-State Technical College
