

Community Technology Centers

NTC's Community Technology Centers provide free access to high-speed internet at our Antigo and Phillips campus locations. These updated spaces feature internet cafés, private offices and co-working spaces. All spaces include access to vending services and office equipment such as printers, copiers and scanners.

Rental Options Available

Private offices and meeting rooms can be reserved for a nominal rate on a daily, weekly or monthly basis. Additionally, a remote worker package is available for those who need a secure, dedicated office space with 24/7 keycard access. Please contact the Antigo or Phillips campus for additional information on these options.
